EDITION 4

Harvest Festivals

The Harvest Festival was celebrated over three days with great enthusiasm. Each class learnt and later showcased the harvest festival as celebrated in different states of India. The Seniors prepared a colourful collage depicting celebrations in states such as Punjab (Lohri), Karnataka (Sankranti), and Tamil Nadu (Pongal), and shared their understanding with children from other classes. The Juniors decorated their classrooms with beautiful rangoli and distributed ellu bella, revadi, and popcorn to their classmates, teachers and akkas. The Freshers performed lively traditional dances like Kolata, Gidda, and Bihu, adding great joy to the celebration. The event enriched the childrens' understanding and appreciation of India's cultural diversity..

Visit to The Big Barn Nature Camp

The Juniors and Seniors visited 'The Big Barn Nature Camp', trading classrooms for open fields and immersing themselves in a world of discovery. Our little learners enjoyed feeding cows and fish, petting iguanas, rabbits, ferrets, and guinea pigs, getting their hands dirty with seed potting, zooming around on buggy rides, and laughing through outdoor games. It was a perfect blend of fun, teamwork, and hands-on learning, creating truly cherished memories.

HAPPY REPUBLIC DAY

As part of Republic Day celebrations, the Seniors participated in Show and Tell session, sharing information about different states of India through charts, collages, and creative displays, highlighting the nation's unity in diversity. Juniors, dressed as freedom fighters, spoke passionately about the sacrifices made for India's independence. The freshers, clad in saffron, white, and green, marched gracefully in a parade, paying tribute to the National Flag.

PARENT OBSERVATIONS & FEEDBACK

Parents of our Freshers were invited to observe a typical day at school. They were delighted to see a confident and independent version of their child. The observation gave parents valuable insight into the calm, purposeful functioning of the Montessori classroom, where children take ownership of their learning and daily routines. A follow up meeting with teachers helped bridge the gap between home and school, strengthening understanding and partnership in supporting each child's development.

Turning Pages...Growing Minds

"A book is a gift we can open again and again." Books enrich a child's vocabulary, helps understand feelings, build empathy and foster imagination. To nurture young readers, Montessori celebrated annual Book Week from 2nd to 6th February 2026. Each day was packed with fun-filled activities that sparked a love for reading and encouraged creativity, critical thinking, and empathy.

BOOK WEEK

Freshers dressed up as characters from their favourite books for 'Dress Me Up' and confidently introduced themselves and the character they depicted. As they took their first steps into the world of reading, they enthusiastically participated in Sound Bingo. They also enjoyed interactive storytelling sessions that brought stories to life and enriched their vocabulary, while strengthening their understanding of values and love for books.

BOOK WEEK

Juniors participated in a range of activities planned specially for them. They enjoyed the challenging world of treasure hunt. They got their favourite book to school and excitedly shared the stories with their friends. The engaging story session culminated with their artwork and origami bringing imagination and creative skills alive.

BOOK WEEK

Seniors wrote their first Reader Response on their favourite book. Activities such as Word Hunt and matching words with their meanings both challenged and inspired them to read and learn more. They brought their imaginations to life by illustrating their booklets with vibrant colours. Book Week sparked learning and creativity in the most engaging way for the children.

JUST ANOTHER DAY

When asked to circle the greater number: 1 or 9, without a moment's pause, the child confidently circled 1 and declared, "One always means winner... so obviously, it's the greater number!" 😊

After the annual day performance, a child ran up to her teacher, eyes sparkling. "Ma'am, I did so well! All the parents wanted to take photos with me," she said excitedly. Smiling, the teacher replied, "You're a celebrity now!" The child nodded proudly and said, "Yes, ma'am. Everybody celebrated me"

A child was carefully counting the short bead chain of 9 and placing the number cards. Suddenly, another child confidently took charge: "Put 9 first, then 18... now 81 goes at the end!" After a quick pause, more expert instructions followed — "27 on the top, 72 at the bottom, 36 on the top and 63 at the bottom" and so on... proving that teamwork makes maths even more fun!

Thank you
